

Dear Parents,

Your child's health is of utmost importance to the future of our community. A well-balanced diet provides the nutrients your child needs. While most of the vitamins and minerals your child needs come from the food they eat, your child might not be getting all their daily requirements. Multivitamins can aid in making sure your child is getting all of the vitamins and minerals they need.

Multivitamins offer many benefits to children. These benefits include stronger immune systems, development of brain and nervous systems, and healthy bones and muscles. Multivitamins also ensure dental and eye health along with normal growth and development.

Red Cross Pharmacy is proud to say we can help with taking that step toward making your child healthier. We are proud to introduce KidCare, a free vitamin program offering your child free multivitamins. Our KidCare program provides children from K-5th grades with a free monthly supply of children's multivitamins for a year.

Attached you will find a registration form. This form should be filled out and presented at your local Red Cross Pharmacy to receive your punch card and your first free month's supply of Red Cross Pharmacy Brand Children's Multivitamins.

Stop in and meet our pharmacists today. Start your child on the road to a healthier life.
